INDEX OF SUBJECTS

Abscisic Acid: Physiology and Biochemistry, ed. by W. J. Davies and H. G. Jones, reviewed by G. V. Hoad, 372

Acid infertility in Rwandan Oxisols and its correction with lime from an indigenous source for sustainable cropping (Yamoah, Burleigh and Eylands), 417

Acid soils of the Sahel regions of Africa and the importance of liming them to sustain high crop productivity – a case study from the Republic of Cameroon (Prabhakaran Nair, Ngachie and Nzetchoung), 473

Agricultural Biotechnology: The Next "Green Revolution"?, by World Bank, in association with Australian Centre for International Agricultural Research, Australian International Development Assistance Bureau, and International Service for National Agricultural Research, reviewed by P. R. Shewry, 238

Agricultural Diversification Policies and Issues from East Asian Experience, World Bank, reviewed by J. S. Marsh, 129

Agricultural Extension for Women Farmers in Africa, by K. A. Sato and C. J. Weidemann, reviewed by J. F. A. Russell, 239

Agricultural Extension: The Next Step, World Bank, reviewed by J. F. A. Russell, 240

Agricultural Marketing: The World Bank's Experience 1974–1985, World Bank, reviewed by R. J. Loader, 239

Agricultural Plants (Second Edition), by R. H. M. Langer and G. D. Hill, reviewed by P. D. Jenkins, 479

Agriculture of China (The), ed. by Xu Guohua and L. J. Peel, reviewed by J. Howell, 478

Agroecology and Small Farm Development, ed. by M. A. Altieri and S. B. Hecht, reviewed by D. J. Greenland, 129

Analysis of data in agricultural experimentation. I. Contrasts of interest (Pearce), 245; II. Some standard contrasts (Pearce), 375

Analysis of on-farm rice yield data from India (Simmonds and Talbot), 325

Animal Health Services in Sub-Saharan Africa: Initial Experiences with Alternative Approaches, by C. de Haan and S. Bekure, reviewed by J. Webster, 242

Assessment of improved crop production practices on-farm in northwest Syria. I. Chickpea (Pala and Mazid), 175; II. Lentil (Pala and Mazid), 185

Atrazine weed control and the use of tine-tillage to permit earlier planting of maize by smallholder farmers in Zimbabwe (Shumba, Waddington and Rukuni), 443

Banana and bean intercropping: factors affecting bean yield and land use efficiency (Wortmann, Sengooba and Kyamanywa), 287

Barley and wheat compared with oilseed crops in a dry Mediterranean climate (Hadjichristodoulou), 343

Barley response to fertilizer and site-factor influence in on-farm trials in northern Syria: descriptive and predictive models (Jones and Wahbi), 63

Barley-based rotations of north-west Syria and the use of on-farm trials to study the benefits of including feed legumes in them (Thomson, Jaubert and Oglah), 143

Bean and banana intercropping: factors affecting bean yield and land use efficiency (Wortmann, Sengooba and Kyamanywa), 287

Biochemistry of Silage (The) (Second Edition), by P. Mcdonald, A. R. Henderson and S. J. E. Heron, reviewed by J. Webster, 125

BMA Guide to Pesticides, Chemicals and Health (The) (Second Edition), by the British Medical Association, reviewed by K. J. Brent, 482

Bradyrhizobium-inoculated soyabean and lablab bean and their response to inoculation with vesicular-arbuscular mycorrhizae (Mahdi and Atabani), 399

Brassica juncea, *see* Indian mustard

Cameroon and the case for on-farm trials of fodder banks on the Adamawa Plateau (Tarawali and Pamo), 229

Canopy duration and structure of pigeonpea intercropped with upland rice (Ramakrishna, Ong and Reddy), 295

Cassava yield stability during prolonged mid-season water stress (El-Sharkawy, del Pilar Hernández and Hershey), 165

Chemical composition, yield and uptake of nutrients by Indian mustard (*Brassica juncea*) as affected by drain spacing and phosphorus levels (Singh, Swarup, Sharma and Rao), 135

Chickpea in northern Syria and the effect of vesicular-arbuscular mycorrhiza on phosphorus uptake (Weber, George, Beck, Saxena and Marschner), 433

Climate (dry Mediterranean) and the comparison of oilseed crops with wheat and barley (Hadjichristodoulou), 343

Climate, Water and Agriculture in the Tropics (Second Edition), by I. J. Jackson, reviewed by J. M. Hirst, 240

Climatic Risk in Crop Production: Models and Management for the Semiarid Tropics and Subtropics, ed. by R. C. Muchow and J. A. Bellamy, reviewed by J. R. Porter, 477

Coconut (*Cocos nucifera*) and measuring light interception and the efficiency of light utilization by the palms (Moss), 273

Cocos nucifera, *see* Coconut

Compendium of Bean Diseases, ed. by R. Hall, reviewed by J. A. Bailey, 370

Compendium of Tomato Diseases, ed. by J. B. Jones, J. P. Jones, R. E. Stall and T. A. Zitter, reviewed by J. F. Fletcher, 370

Competition effects and production possibility frontiers and their estimation: the use of *a priori* information on biological processes in intercropping (Ranganathan), 351

Competitive effects of a short duration, bush type cowpea when intercropped with cotton in Zimbabwe (Natarajan and Naik), 409

Conserving the organic matter content of the soil to sustain sugarcane yield (Yadav and Prasad), 57

Contrasts of interest: part I of data analysis in agricultural experimentation (Pearce), 245

Cotton and its yields on the Vertisols of the Sudan Gezira when irrigated and supplied with foliar micronutrient fertilizers, 265

Cotton in Zimbabwe and the competitive effects of a short duration, bush type cowpea when intercropped with it (Natarajan and Naik), 409

Cowpea and the competitive effects of a short duration, bush type cultivar when intercropped with cotton in Zimbabwe (Natarajan and Naik), 409

Cowpea cultivars and their response to planting pattern and date of sowing in intercrops with pearl millet in Niger (Ntare and Williams), 41

Critical Issues in Biological Control, ed. by M. Mackhauer, L. E. Ehler and J. Roland, reviewed by S. T. Murphy, 128

Crop improvement and restriction fragment length polymorphisms (RFLPs) (Young), 385

Crop production and the assessment on-farm of improved practices in northwest Syria. I. Chickpea (Pala and Mazid), 175; II. Lentil (Pala and Mazid), 185

Cropping system based on rainfed millet in central Mali and forage production for smallholder farmers (Bartholomew, Ly, Kone, Traore and Sissoko), 425

Cropping systems research based on farmer experimentation: a case study involving true potato seed (Potts, Watson, Sinung-Basuki and Gunadi), 19

Crusting of soil and its effect on seedling growth in contrasting sorghum lines (Soman, Jayachandran and Peacock), 49

Cultivars of cowpea and their response to planting pattern and date of sowing in intercrops with pearl millet in Niger (Ntare and Williams), 41

Dairy Development in Sub-Saharan Africa, by M. J. Walsh, J. Grundle, A. Nell and M. Becham, reviewed by J. Webster, 242

Diagnosis using on-farm experiments as a method: constraints to nitrogen fertilizer use on sorghum in semi-arid tropical India (Dvořák), 155

Diversity and intercropping: an economic analysis of cropping patterns on smallholder farms in Malawi (Shaxson and Tauer), 211

Drain spacing and phosphorus levels and their effect on yield, chemical composition and uptake of nutrients by Indian mustard (*Brassica juncea*) (Singh, Swarup, Sharma and Rao), 135

Dry Mediterranean climate and the comparison of oilseed crops with wheat and barley (Hadjichristodoulou), 343

Economic analysis of cropping patterns on smallholder farms in Malawi: intercropping and diversity (Shaxson and Tauer), 211

Environmental and genotypic variation in nodal root growth of post-rainy season (*rabi*) sorghum (Soman and Seetharama), 331

Estimation of competition effects and production possibility frontiers: the use of *a priori* information on biological processes in intercropping (Ranganathan), 351

Evaluation of the leaf of a range of tree legumes as a source of nitrogen for crop growth (Gutteridge), 195

Extension and on-farm research and the need for a new approach: the case of farming systems research in remote areas in Nepal (Gibbon and Schultz), 203

Farmer experimentation as a basis for cropping systems research: a case study involving true potato seed (Potts, Watson, Sinung-Basuki and Gunadi), 19

Farmers' Estimations as a Source of Production Data: Methodological Guidelines for Cereals in Africa, by J. Murphy, D. J. Casley and J. J. Curry, reviewed by E. J. Wibberley, 369

Farming systems diagnosis of small farmer mechanization in the Santa Cruz colonization zone: a failure? (Thiele), 453

Farming systems research in India: a historical perspective (Kanwar, Virmani, and Das), 1

Farming systems research in remote areas in Nepal: the need for a new approach to on-farm research and extension (Gibbon and Schultz), 203
Feed legumes and the use of on-farm trials to study the benefits of including them in barley-based rotations of north-west Syria (Thomson, Jaubert and Oglah), 143
Fertilization, seeding and protection from grazing as a means of improving Mediterranean grasslands in Lebanon (Osman and Cocks), 461
Fertilizer and constraints to nitrogen use on sorghum in semi-arid tropical India: on-farm experiments as a diagnostic method (Dvořák), 155
Fertilizer and site-factor influence on barley response in on-farm trials in northern Syria: descriptive and predictive models (Jones and Wahbi), 63
Fertilizers and the effects of micronutrients applied to leaves on the yield of irrigated cotton on the Vertisols of the Sudan Gezira (Ishag), 265
Fisheries and Aquaculture Research Capabilities and Needs in Asia: Studies of India, Thailand, Malaysia, Indonesia, the Philippines and the ASEAN Region (Technical Paper No. 147), by F. T. Christy, D. James *et al.*, reviewed by B. Nestel, 479
Fisheries and Aquaculture Research Capabilities and Needs in Latin America: Studies of Uruguay, Argentina, Chile, Ecuador and Peru (Technical Paper No. 148), by D. de Griffith, Jean-Paul Troadec *et al.*, reviewed by B. Nestel, 479
Fisheries and Aquaculture Research Capabilities and Needs in Africa: Studies of Kenya, Malawi, Mozambique, Mauritania, Morocco and Senegal (Technical Paper No. 149), by D. Pauly, F. Poinsard *et al.*, reviewed by B. Nestel, 479
Fodder banks and the case for on-farm trials of them on the Adamawa Plateau in Cameroon (Tarawali and Pamo), 229
Foliar micronutrient fertilizers and their effects on the yield of irrigated cotton on the Vertisols of the Sudan Gezira (Ishag), 265
Forage production for smallholder farmers in a rainfed millet cropping system in central Mali (Bartholomew, Ly, Kone, Traore and Sissoko), 425
Forest Economics and Policy Analysis: An Overview, by W. F. Hyde and D. H. Newman, reviewed by R. H. Kemp, 480
Fruiting activity, growth and yield of oil palm. I. Effects of fruit removal (Corley and Breure), 99; II. Observations in untreated populations (Breure and Corley), 111

Genetic resources of plants and plant improvement as tools to develop sustainable agriculture (Ceccarelli, Valkoun, Erskine, Weigand, Miller and Van Leur), 89
Genetic vulnerability of Oceania's traditional crops (Lebot), 309
Genotypic and environmental variation in nodal root growth of post-rainy season (*rabi*) sorghum (Soman and Seetharama), 331
Gibberellins, ed. by N. Takahashi, B. O. Phinney and J. Macmillan, reviewed by G. V. Hoad, 128
Grasslands (Mediterranean) in Lebanon and prospects for their improvement through seeding, fertilization and protection from grazing (Osman and Cocks), 461
Grazing protection, seeding and fertilization as a means of improving Mediterranean grasslands in Lebanon (Osman and Cocks), 461
Greenhouse Effect (The): Implications for Economic Development, by E. Arrhenius and T. W. Waltz, reviewed by R. M. Bennett, 123
Growth of crops and the evaluation of the leaf of a range of tree legumes as a source of nitrogen for it (Gutteridge), 195
Growth of seedlings in contrasting sorghum lines as affected by soil crusting (Soman, Jayachandran and Peacock), 49
Growth, fruiting activity and yield of oil palm. I. Effects of fruit removal (Corley and Breure), 99; II. Observations in untreated populations (Breure and Corley), 111

Heliothis: Research Methods and Prospects, ed. by M. P. Zalucki, reviewed by D. Dent, 241
Herbicide Resistance in Weeds and Crops, ed. by J. C. Caseley, G. W. Cussans and R. K. Atkin, reviewed by R. J. Stephens, 478
Herbicides and Plant Metabolism, ed. by A. D. Dodge, reviewed by J. K. Townson, 127
Historical perspective on farming systems research in India (Kanwar, Virmani, and Das), 1
Hops, by R. A. Neve, reviewed by D. J. Royle, 123

Improvement of crops and restriction fragment length polymorphisms (RFLPs) (Young), 385
India and farming systems research: a historical perspective (Kanwar, Virmani, and Das), 1
India and the analysis of on-farm rice yield data (Simmonds and Talbot), 325
India and the constraints to nitrogen fertilizer use on sorghum in the semi-arid tropics: on-farm experiments as a diagnostic method (Dvořák), 155
Indian mustard (*Brassica juncea*) and the effect of drain spacing and phosphorus levels on its yield, chemical composition and uptake of nutrients (Singh, Swarup, Sharma and Rao), 135
Indonesia and the on-farm development of potato production from true seed (Gunadi, Potts, Sinung-Basuki and Watson), 31
Infertility caused by acid conditions in Rwandan Oxisols and its correction with lime from an indigenous source for sustainable cropping (Yamoah, Burleigh and Eylands), 417

Inoculation of *Bradyrhizobium*-inoculated soyabean and lablab bean with vesicular-arbuscular mycorrhizae and its effects (Mahdi and Atabani), 399

Inositol Metabolism in Plants, Plant Biology, Vol 9, ed. by D. J. Moore, W. F. Boss and F. A. Loewus, reviewed by R. Hooley, 369

Integrated Pest Management and African Agriculture (Technical Paper 142), by A. Kiss and F. Meerman, reviewed by D. J. Greathead, 481

Intercropped cowpea and cotton in Zimbabwe and the competitive effects of a short duration, bush type cowpea (Natarajan and Naik), 409

Intercropping and diversity: an economic analysis of cropping patterns on smallholder farms in Malawi (Shaxson and Tauer), 211

Intercropping and the use of *a priori* information on biological processes in estimating production possibility frontiers and competition effects (Ranganathan), 351

Intercropping of banana and bean: factors affecting bean yield and land use efficiency (Wortmann, Sengooba and Kyamanywa), 287

Intercropping of maize and mungbean and phosphorus utilization efficiency as affected by component population, rhizobial inoculation and applied nitrogen (Chowdhury and Rosario), 255

Intercropping of pigeonpea with upland rice in relation to pigeonpea canopy duration and structure (Ramakrishna, Ong and Reddy), 295

Intercrops of cowpea with pearl millet in Niger: response of the cowpea cultivars to planting pattern and date of sowing (Ntare and Williams), 41

International Cooperation in Fisheries Research (Technical Paper No. 150), by Jean-Paul Troadec *et al.*, reviewed by B. Nestel, 479

Introduction to Agricultural Engineering: A Problem Solving Approach (Second Edition), by L. O. Roth and H. L. Field, reviewed by M. J. Hann, 481

Irrigated cotton yields on the Vertisols of the Sudan Gezira as affected by foliar micronutrient fertilizers (Ishag), 265

Irrigation in Sub-Saharan Africa: The Development of Public and Private Systems, by S. Barghouti and G. le Moigne, reviewed by R. C. Carter, 477

Irrigation with Treated Sewage Effluent: Management for Environmental Protection, by A. Feigin, I. Ravina and J. Shalhevet, reviewed by A. J. Moffatt, 241

John Bennett Laws: the Record of his Genius, by G. V. Dyke, reviewed by J. M. Hirst, 243

Lablab bean and soyabean inoculated with *Bradyrhizobium* and their response to inoculation with vesicular-arbuscular mycorrhizae (Mahdi and Atabani), 399

Land use efficiency and yield of bean and the factors that affect them when banana and bean are intercropped (Wortmann, Sengooba and Kyamanywa), 287

Leaf of a range of tree legumes and its evaluation as a source of nitrogen for crop growth (Gutteridge), 195

Lebanon and the prospects for improving Mediterranean grasslands through seeding, fertilization and protection from grazing (Osman and Cocks), 461

Legumes for fodder and the use of on-farm trials to study the benefits of including them in barley-based rotations of north-west Syria (Thomson, Jaubert and Oglah), 143

Leguminous trees and the evaluation of their leaf as a source of nitrogen for crop growth (Gutteridge), 195

Light and the measurement of its interception and utilization by the coconut palm (*Cocos nucifera*) (Moss), 273

Lime from an indigenous source and its use to correct acid infertility in Rwandan Oxisols for sustainable cropping (Yamoah, Burleigh and Eylands), 417

Liming the acid soils of the Sahel regions of Africa and its importance in sustaining high crop productivity – a case study from the Republic of Cameroon (Prabhakaran Nair, Ngachie and Nzetchoung), 473

Maize and the use of tine-tillage, with atrazine weed control, to permit earlier planting by smallholder farmers in Zimbabwe (Shumba, Waddington and Rukuni), 443

Maize/mungbean intercropping and phosphorus utilization efficiency as affected by component population, rhizobial inoculation and applied nitrogen (Chowdhury and Rosario), 255

Malawi and intercropping and diversity: an economic analysis of cropping patterns on smallholder farms (Shaxson and Tauer), 211

Mali (central) and forage production for smallholder farmers in a rainfed millet cropping system (Bartholomew, Ly, Kone, Traore and Sissoko), 425

Managing the Behaviour of Animals, ed. by P. Monaghan and D. Wood-Gush, reviewed by C. J. Nicol, 124

Mechanization by small farmers in the Santa Cruz colonization zone: a failure of farming systems diagnosis? (Thiele), 453

Mediterranean climate (dry) and a comparison of oilseed crops with wheat and barley (Hadjichristodoulou), 343

Mediterranean grasslands in Lebanon and prospects for their improvement through seeding, fertiliz-

ation and protection from grazing (Osman and Cocks), 461
Micronutrients and their effects when supplied as foliar fertilizers on the yield of irrigated cotton on the Vertisols of the Sudan Gezira (Ishag), 265
Millet and forage production for smallholder farmers in a rainfed cropping system in central Mali (Bartholomew, Ly, Kone, Traore and Sissoko), 425
Models, descriptive and predictive, of the site-factor influence on barley response to fertilizer in on-farm trials in northern Syria (Jones and Wahbi), 63
Mungbean/maize intercropping and phosphorus utilization efficiency as affected by component population, rhizobial inoculation and applied nitrogen (Chowdhury and Rosario), 255

Nepal and farming systems research in remote areas there: the need for a new approach to on-farm research and extension (Gibbon and Schultz), 203
New Horizons in Agricultural Information Management (Proceedings of an International Symposium, March 13–16, 1991, Beijing, China), ed. by G. K. McCone, reviewed by J. H. Gilmour, 481
Niger and the response of cowpea cultivars to planting pattern and date of sowing in intercrops with pearl millet there (Ntare and Williams), 41
Nitrogen and the evaluation of the leaf of a range of tree legumes as a source for crop growth (Gutteridge), 195
Nitrogen application, rhizobial inoculation and component population effects on phosphorus utilization efficiency in maize/mungbean intercropping (Chowdhury and Rosario), 255
Nitrogen fertilizer and constraints to its use on sorghum in semi-arid tropical India: on-farm experiments as a diagnostic method (Dvořák), 155
Nutrient uptake, yield and chemical composition in Indian mustard (*Brassica juncea*) as affected by drain spacing and phosphorus levels (Singh, Swarup, Sharma and Rao), 135

Oceania's traditional crops and their genetic vulnerability (Lebot), 309
Oil palm fruiting activity, growth and yield. I. Effects of fruit removal (Corley and Breure), 99; II. Observations in untreated populations (Breure and Corley), 111
Oilseed crops compared with wheat and barley in a dry Mediterranean climate (Hadjichristodoulou), 343
On-farm assessment of improved crop production practices in northwest Syria. I. Chickpea (Pala and Mazid), 175; II. Lentil (Pala and Mazid), 185
On-farm development of potato production from true seed in Indonesia (Gunadi, Potts, Sinung-Basuki and Watson), 31
On-farm experiments as a diagnostic method: constraints to nitrogen fertilizer use on sorghum in semi-arid tropical India (Dvořák), 155
On-farm research and extension and the need for a new approach: the case of farming systems research in remote areas in Nepal (Gibbon and Schultz), 203
On-farm rice yield data from India and its analysis (Simmonds and Talbot), 325
On-farm trials and their use to study the benefits of feed legumes in barley-based rotations of northwest Syria (Thomson, Jaubert and Oglah), 143
On-farm trials in northern Syria and site-factor influence on barley response to fertilizer: descriptive and predictive models (Jones and Wahbi), 63
On-farm trials of fodder banks on the Adamawa Plateau in Cameroon (Tarawali and Pamo), 229
Organic matter content of the soil and its conservation to sustain sugarcane yield (Yadav, and Prasad), 57
Outline for Fertilizer Demand, Supply and Trade, 1988/89–1993/94 (An), by K. M. Constant and F. W. Sheldrick, reviewed by J. B. D. Robinson, 372
Oxisols in Rwanda and the correction of acid infertility with lime from an indigenous source for sustainable cropping (Yamoah, Burleigh and Eylands), 417

Patterns of cropping on smallholder farms in Malawi: an economic analysis of intercropping and diversity (Shaxson and Tauer), 211
Pearl millet and cowpea intercrops in Niger: response of the cowpea cultivars to planting pattern and date of sowing (Ntare and Williams), 41
Phosphorus levels and drain spacing and their effect on yield, chemical composition and uptake of nutrients by Indian mustard (*Brassica juncea*) (Singh, Swarup, Sharma and Rao), 135
Phosphorus uptake of chickpea grown in northern Syria and vesicular-arbuscular mycorrhiza (Weber, George, Beck, Saxena and Marschner), 433
Phosphorus utilization efficiency as affected by component population, rhizobial inoculation and applied nitrogen in maize/mungbean intercropping (Chowdhury and Rosario), 255
Pigeonpea and its canopy duration and structure in relation to intercropping with upland rice (Ramakrishna, Ong and Reddy), 295
Plant Canopies: their Growth, Form and Structure, ed. by G. Russell, B. Marshall and P.G. Jarvis, reviewed by M. P. Coutts, 123
Plant Growth Substances 1988, ed. by R. P. Pharis and S. P. Rood, reviewed by G. V. Hoad, 126

Planting pattern and date of sowing: the response of cowpea cultivars in intercrops with pearl millet in Niger (Ntare and Williams), 41

Political, Social and Economic Perspectives on the International Food System, ed. by T. Marsden and J. Little, reviewed by M. Upton, 126

Population, rhizobial inoculation and applied nitrogen effects on phosphorus utilization efficiency in maize/mungbean intercropping (Chowdhury and Rosario), 255

Postharvest Physiology of Perishable Plant Products, by S. J. Kay, reviewed by A. K. Thompson, 242

Potato Crop (The): The Scientific Basis for Improvement, ed. by P. Harris, reviewed by N. W. Simmonds, 373

Potato production from true seed: on-farm development in Indonesia (Gunadi, Potts, Sinung-Basuki and Watson), 31

Potato seed: a case study of farmer experimentation as a basis for cropping systems research (Potts, Watson, Sinung-Basuki and Gunadi), 19

Production possibility frontiers and estimation of competition effects: the use of *a priori* information on biological processes in intercropping (Ranganathan), 351

Productivity of crops on the acid soils of the Sahel regions of Africa and the importance of liming to sustain high yields – a case study from the Republic of Cameroon (Prabhakaran Nair, Ngachie and Nzetchoung), 473

Promoting Rural Cooperatives in Developing Countries: The Case of Sub-Saharan Africa, by A. Braverman, J. L. Guasch, M. Huppi and L. Pohlmeier, reviewed by E. J. Wibberley, 371

Putting People First: Sociological Variables in Rural Development (Second Edition), ed. by M. M. Cernea, reviewed by G. A. Watson, 373

Rabi (post-rainy season) sorghum and genotypic and environmental variation in nodal root growth (Soman and Seetharama), 331

Rainfed millet cropping system (a) in central Mali and forage production for smallholder farmers (Bartholomew, Ly, Kone, Traore and Sissoko), 425

Raising and Sustaining Production of Smallholder Farming Systems in the Tropics, by W. C. Beets, reviewed by N. W. Simmonds, 371

Redefining the Role of Government in Agriculture for the 1990s, by O. Knudsen and John Nash, reviewed by C. Thirtle, 238

Republic of Cameroon: a case study showing the importance of liming acid soils of the Sahel regions of Africa to sustain high crop productivity (Prabhakaran Nair, Ngachie and Nzetchoung), 473

Restriction fragment length polymorphisms (RFLPs) and crop improvement (Young), 385

Rhizobial inoculation, applied nitrogen and component population effects on phosphorus utilization efficiency in maize/mungbean intercropping (Chowdhury and Rosario), 255

Rhizosphere (The), ed. by J. M. Lynch, reviewed by D. G. Jones, 238

Rice (upland) intercropped with pigeonpea and the effect of pigeonpea canopy duration and structure (Ramakrishna, Ong and Reddy), 295

Rice yield and the analysis of on-farm data from India (Simmonds and Talbot), 325

Root growth (nodal) of post-rainy season (*rabi*) sorghum: genotypic and environmental variation (Soman and Seetharama), 331

Rotations based on barley in north-west Syria and the use of on-farm trials to study the benefits of including feed legumes in them (Thomson, Jaubert and Oglah), 143

Rural Diversification: Lessons from East Asia, by S. Barghouti, C. Timmer and P. B. Seigel, reviewed by J. S. Marsh, 129

Rwandan Oxisols and the correction of acid infertility with lime from an indigenous source for sustainable cropping (Yamoah, Burleigh and Eylands), 417

Sahel regions of Africa and the importance of liming acid soils there to sustain high crop productivity – a case study from the Republic of Cameroon (Prabhakaran Nair, Ngachie and Nzetchoung), 473

Santa Cruz and small farmer mechanization in the colonization zone: a failure of farming systems diagnosis? (Thiele), 453

Seasonality and Agriculture in the Developing World: A Problem of the Poor and Powerless, by G. J. Gill, reviewed by M. H. Arnold, 237

Seeding, fertilization and protection from grazing as a means of improving Mediterranean grasslands in Lebanon (Osman and Cocks), 461

Seedling growth in contrasting sorghum lines as affected by soil crusting (Soman, Jayachandran and Peacock), 49

Semi-arid tropical India and the constraints to nitrogen fertilizer use on sorghum: on-farm experiments as a diagnostic method (Dvořák), 155

Site-factor influence on barley response to fertilizer in on-farm trials in northern Syria: descriptive and predictive models (Jones and Wahbi), 63

Small farmer mechanization in the Santa Cruz colonization zone: a failure of farming systems diagnosis? (Thiele), 453

Small Pelagic Fish Utilization: Research Needs (Technical Paper No. 153), by D. James *et al.*, reviewed by B. Nestel, 479

Small-scale Fisheries: Research Needs (Technical Paper No.

152), by F. T. Christy *et al.*, reviewed by B. Nestel, 479

Smallholder farmers in central Mali and forage production in a rainfed millet cropping system (Bartholomew, Ly, Kone, Traore and Sissoko), 425

Smallholder farmers in Zimbabwe and the use of tine-tillage, with atrazine weed control, to permit earlier planting of maize (Shumba, Waddington and Rukuni), 443

Smallholder farms in Malawi and intercropping and diversity: an economic analysis of cropping patterns (Shaxson and Tauer), 211

Soil and Water Conservation (Second Edition), by F. R. Troeh, J. A. Hobbs and R. L. Donahue, reviewed by N. W. Hudson, 127

Soil crusting and its effect on seedling growth in contrasting sorghum lines (Soman, Jayachandran and Peacock), 49

Soil organic matter content and its conservation to sustain sugarcane yield (Yadav and Prasad), 57

Soils that are acid in the Sahel regions of Africa and the importance of liming them to sustain high crop productivity – a case study from the Republic of Cameroon (Prabhakaran Nair, Ngachie and Nzetchoung), 473

Somaclonal Variation in Crop Improvement 1: Vol. 11 in Biotechnology in Agriculture and Forestry, ed. by V. P. S. Bajaj, reviewed by N. W. Simmonds, 125

Sorghum and genotypic and environmental variation in nodal root growth of post-rainy season (*rabi*) crops (Soman and Seetharama), 331

Sorghum and the constraints to nitrogen fertilizer use on it in semi-arid tropical India: on-farm experiments as a diagnostic method (Dvořák), 155

Sorghum and the effect of soil crusting on seedling growth in contrasting lines (Soman, Jayachandran and Peacock), 49

Sowing date and planting pattern: the response of cowpea cultivars in intercrops with pearl millet in Niger (Ntare and Williams), 41

Soyabean and lablab bean inoculated with *Bradyrhizobium* and their response to inoculation with vesicular-arbuscular mycorrhizae (Mahdi and Atabani), 399

Stress caused by prolonged mid-season drought and the yield stability of cassava (El-Sharkawy, del Pilar Hernández and Hershey), 165

Sudan Gezira and the effects of foliar micronutrient fertilizers on the yield of irrigated cotton on the Vertisols there (Ishag), 265

Sugarcane and conserving the organic matter content of the soil to sustain yield (Yadav and Prasad), 57

Sustainable agriculture and its development using plant genetic resources and plant improvement as tools (Ceccarelli, Valkoun, Erskine, Weigand, Miller and Van Leur), 89

Sustainable cropping and the correction of acid infertility in Rwandan Oxisols with lime from an indigenous source (Yamoah, Burleigh and Eylands), 417

Syria (northern) and the effect of vesicular-arbuscular mycorrhiza on phosphorus uptake of chickpea (Weber, George, Beck, Saxena and Marschner), 433

Syria and the on-farm assessment of improved crop production practices in the northwest. I. Chickpea (Pala and Mazid), 175; II. Lentil (Pala and Mazid), 185

Syria and the use of on-farm trials to study the benefits of feed legumes in barley-based rotations of the north west (Thomson, Jaubert and Oglah), 143

Syria, northern, and the site-factor influence on barley response to fertilizer in on-farm trials: descriptive and predictive models (Jones and Wahbi), 63

Systems, *see* Farming systems *and* Cropping systems

Tine-tillage and its use, with atrazine weed control, to permit earlier planting of maize by smallholder farmers in Zimbabwe (Shumba, Waddington and Rukuni), 443

Trade, Exchange Rate, and Agricultural Pricing Policies in the Philippines, by P. S. Intal Jr and J. H. Power, reviewed by M. Upton, 237

Tree legumes and the evaluation of their leaf as a source of nitrogen for crop growth (Gutteridge), 195

Tropical Aquaculture Development: Research Needs (Technical Paper No. 151), by P. Edwards, E. A. Huisman *et al.*, reviewed by B. Nestel, 479

Tropical Pasture Utilisation, by L. R. Humphreys, reviewed by M. J. T. Norman, 128

United Kingdom Register of Agricultural Models 1990, by G. R. Squire and P. J. Hamer, reviewed by Philip Brain, 124

Unwelcome Harvest: Agriculture and Pollution, by G. R. Conway and J. N. Pretty, reviewed by J. K. Coulter, 478

Upland rice intercropped with pigeonpea and the effect of pigeonpea canopy duration and structure (Ramakrishna, Ong and Reddy), 295

Using Meteorological Information and Products, ed. by A. Price-Budgen, reviewed by W. Day, 126

Vertisols of the Sudan Gezira and the effects of foliar micronutrient fertilizers on the yield of irrigated cotton there (Ishag), 265

Vesicular-arbuscular mycorrhiza and phosphorus uptake of chickpea grown in northern Syria

(Weber, George, Beck, Saxena and Marschner), 433

Vesicular-arbuscular mycorrhizal inoculation of *Bradyrhizobium*-inoculated soyabean and lablab bean and its effects (Mahdi and Atabani), 399

Water stress and the yield stability of cassava when there is a prolonged mid-season drought (El-Sharkawy, del Pilar Hernández and Hershey), 165

Weed control with atrazine, combined with tine-tillage, to permit earlier planting of maize by smallholder farmers in Zimbabwe (Shumba, Waddington and Rukuni), 443

Wheat and barley compared with oilseed crops in a dry Mediterranean climate (Hadjichristodoulou), 343

Wheat: Vol. 13 in Biotechnology in Agriculture and Forestry, ed. by V. P. S. Bajaj, reviewed by F. G. H. Lupton, 125

World and Regional Supply and Demand Balances for Nitrogen, Phosphate and Potash, 1988/90–1995/96, by World Bank, FAO, UNIDO and Industry Fertilizer Working Group, reviewed by J. B. D. Robinson, 372

Yield and land use efficiency of bean and the factors that affect them when banana and bean are intercropped (Wortmann, Sengooba and Kyamanywa), 287

Yield of irrigated cotton on the Vertisols of the Sudan Gezira as affected by foliar micronutrient fertilizers (Ishag), 265

Yield of rice and the analysis of on-farm data from India (Simmonds and Talbot), 325

Yield of sugarcane and sustaining it by conserving the organic matter content of the soil (Yadav and Prasad), 57

Yield stability of cassava during prolonged mid-season water stress (El-Sharkawy, del Pilar Hernández and Hershey), 165

Yield, chemical composition and uptake of nutrients by Indian mustard (*Brassica juncea*) as affected by drain spacing and phosphorus levels (Singh, Swarup, Sharma and Rao), 135

Yield, fruiting activity and growth of oil palm. I. Effects of fruit removal (Corley and Breure), 99; II. Observations in untreated populations (Breure and Corley), 111

Zimbabwe and the competitive effects of a short duration, bush type cowpea when intercropped with cotton there (Natarajan and Naik), 409

Zimbabwe and the use of tine-tillage, with atrazine weed control, to permit earlier planting of maize by smallholder farmers (Shumba, Waddington and Rukuni), 443
